### CHANGE

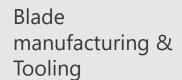

aeris

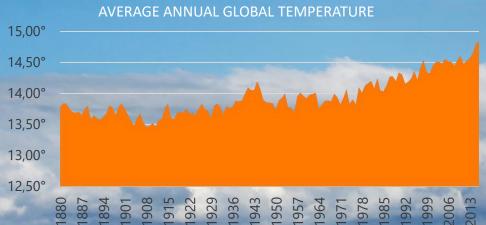

Inspection and repair of

wind turbine blades

aeris aservice

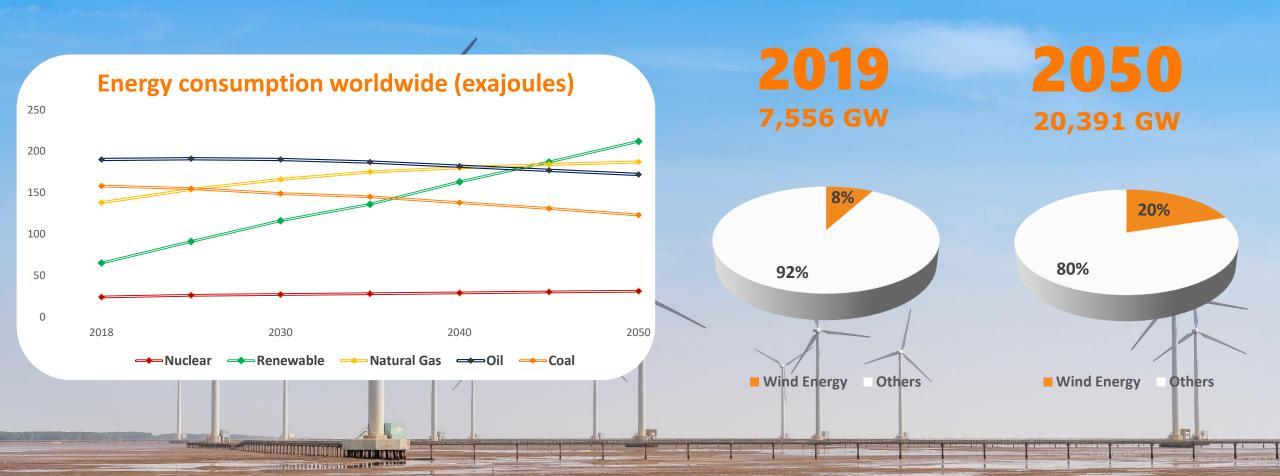

Climate problems, such as global warming, increase the share of renewable energy in the next few decades.

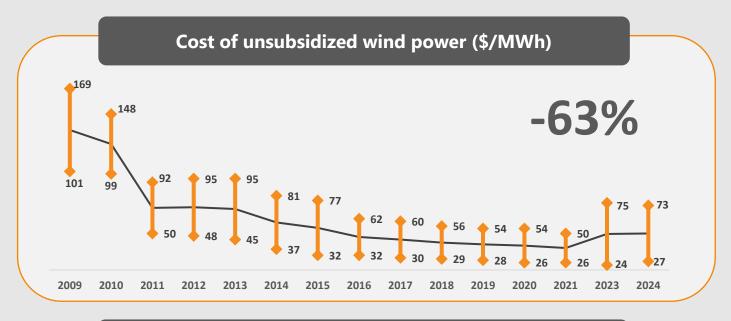

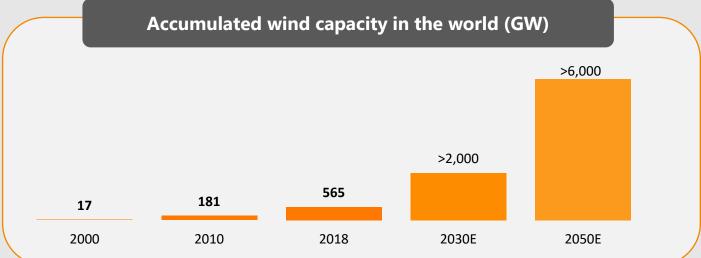

# TRANSITION Y

Sources: Bloomberg and Statista

## WIND ENERGY MARKET WORLD

#### HIGHLIGHTS

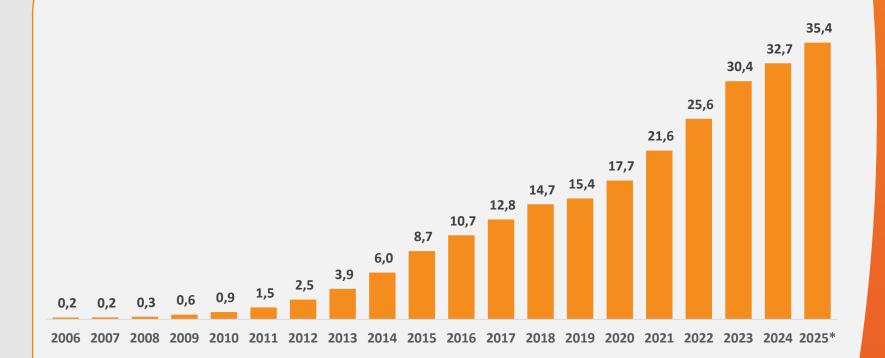

Levelized cost of energy (LCOE) fell by 63% in the last decade, making wind energy a key player in energy transition.

The installed capacity should triple by 2030, and triple again by 2050.

Source: Lazard Levelized Cost of Energy Analysis e Future of Wind 2019 (Irena)

## WIND ENERGY MARKET BRAZIL

#### **Accumulated Wind Capacity - Brazil (GW)**

#### HIGHLIGHTS

 Average capacity factor in Brazil exceeds global average 40% vs 34%

Sources: Abeeólica Infovento 36 Installation forecast by the end of the year Sources: Global Wind Energy Council.

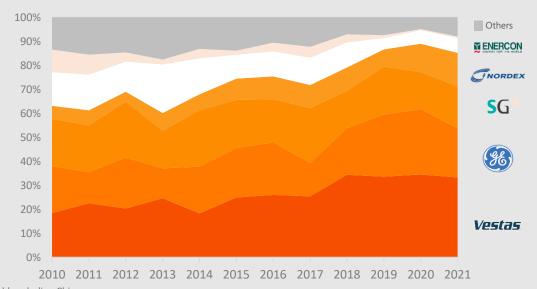

#### MARKET CONSOLIDATION AND OUTSOURGING

#### Market share OEMs<sup>1</sup>

Wind turbine manufacturers have undergone intense consolidation in the last few years.

Western world is concentrated in a few companies.

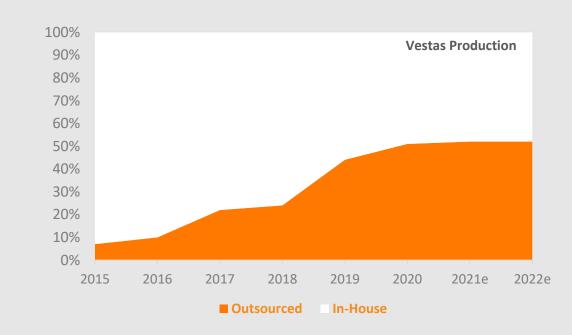

Chinese manufacturers remain isolated, accounting for less than 2.0% outside China.

#### **Outsourcing trend**

Increase of the blade manufacturing outsourcing process, moving up from less than 20% 10 years ago to more than 50% today.

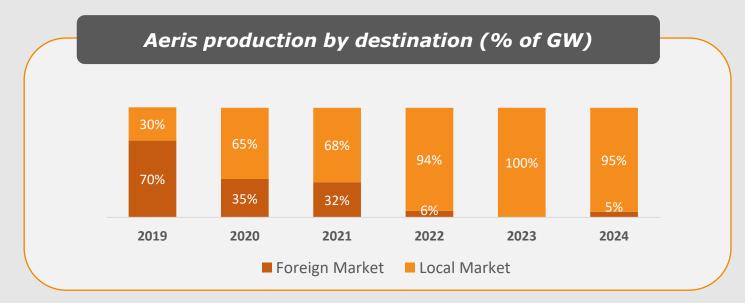

Aeris is established to increase participation in all customers.

#### AERIS IN THE GLOBAL MARKET

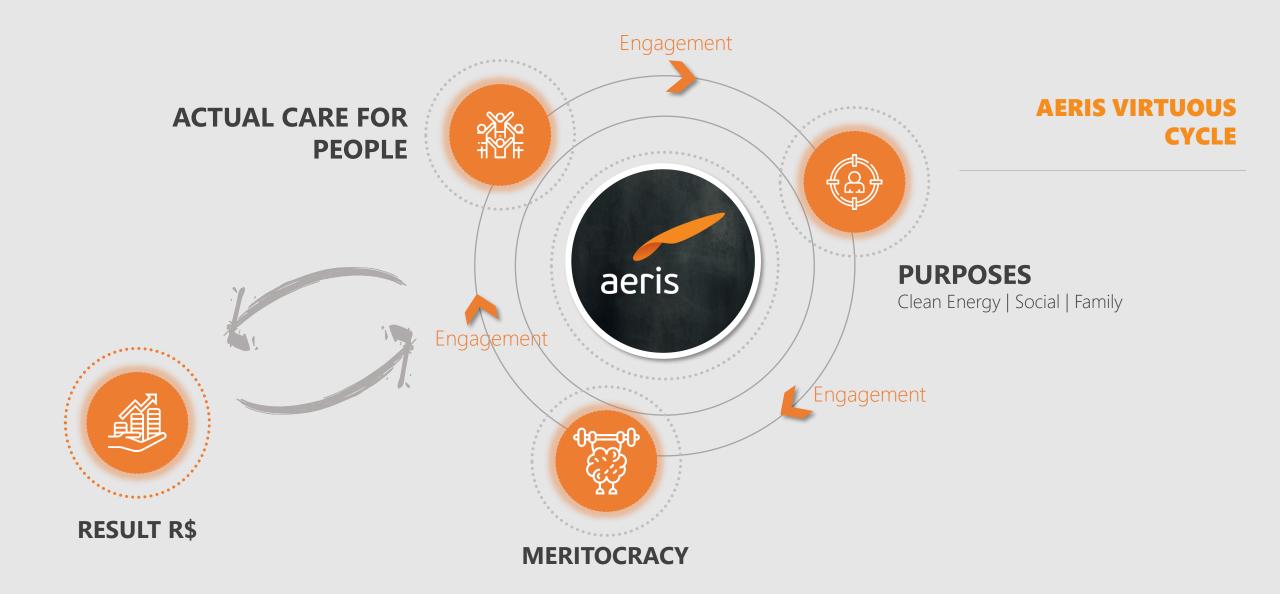

# Aeris has consolidated as a global blade supplier.

Closeness to the Pecém Port and application of Lean concepts in blade shipment reduce logistics costs for customers and make Aeris even more competitive globally.

Service team with multinational presence results in higher after-sale comfort.

#### **AERIS CULTURE**

# WE ARE SIGNATORIES TO THE GLOBAL COMPACT

we have been part of a global agenda since 2016

generation of jobs and income, education and clean energy.

# SOCIALIST

"Adote um Sorriso" aims to motivate employees in actions to promote childhood in October, in activities related to Children's Day in the community.

The Social Intelligence
Committee and the Diversity
and Inclusion Committee
are groups of volunteer
employees from several
departments focused on
implementing Social
Responsibility and Diversity
and Inclusion programs and
actions.

"Ventos Solidários" joins forces to provide important services to the population through a joint, integrated and free effort in the health, leisure, education and citizenship areas.

"Projeto Ventos do Saber" turns public school libraries into spaces for leisure and interaction, and carries out educational activities focused on reading.

"MIAU" aims to disseminate quality audiovisual content for children, democratizing access to movie theaters.

"Gente que Faz na Comunidade" engages employees in the creation of lectures, courses, and workshops that contribute to the training of the surrounding communities.

"Mentoria Jovem Aeris" is an action aimed to increase the employability of the communities' young adults through the development of technical, behavioral, and cultural skills.

"Escolinha de Triathlon Aeris" is a project that supports the practice of sports by offering facilities, equipment and trained professionals for 50 children in the region.
